10 THINGS TO LOVE ABOUT THE NEW CHEVROLET TRAILBLAZER

With its best-in-class Duramax diesel engine, speed through every journey with the power of 200 horses under the hood. With 500 Nm of torque, easily push through uphill climbs while pulling up to 3 tons of gear.

A newly improved smooth and silent engine and powertrain reduces vehicle noise, resulting in a peaceful drive.

For a smooth drive and a calming ride for your passengers, TRAILBLAZER takes pride in its signature soft-ride suspension.

LED Daytime Running Lights frame your TRAILBLAZER's automatically activating headlamps, enhancing the handsome new fascia. Rain-sensing wipers and electrochromic rearview mirror help make driving stress free.

Uniquely styled 18-inch gunmetal wheels enhance the TRAILBLAZER's sturdy good looks.

Active Driving Aids help you conquer ascents, hanging, and descents; while Front Rear Park Assist with Reversing Camera give you a good view even of tight parking spaces.

The ability to start the engine and control power windows remotely is doubly useful in cooling down the cabin on those hot days.

The Chevrolet MyLink Infotainment System has a wide, 8-inch touchscreen and is smartphone compatible. Control buttons embedded in the steering wheel ensure that entertainment and information are always within reach.

Being the widest and tallest in its class, the TRAILBLAZER is a standout in exterior size and generous interior space.

A fully customizable spacious interior seats up to seven passengers. The 2nd and 3rd rows can be folded up to 16 different configurations to accommodate your family's storage transport needs.
